Church Planting & Leader Training

## BOLIVIA

**Dear Faithful Prayer Warriors,**

**Praise the Lord** for His continued protection and provision throughout our deputation!

**Praise the Lord** for each of you who uphold our family in prayer and for all of you new supporters who have become a part of God's work in Bolivia!

**Praise the Lord** for allowing us to complete **Valeria's Bolivian paperwork**, making her officially a Bolivian Yooper!

**Praise the Lord for the donated property!** We were recalling a visit we had made to the community of Siete Cascadas (Seven Waterfalls) in the beginning of 2020. As we prayed for the Lord to help us reach the souls in both this area and one called Yotala, we spied a few abandoned buildings in the middle of a large lawn. We casually mentioned how that would **make a perfect church if we were able to obtain it**, yet land is so expensive in our area that we could never afford it. Bro. Cliver from the church in Sucre just sent us a photo **of the place which was given (by someone we don't even know) for the purpose of a church plant and Christian Camp**. Wouldn't you know it is **the same property we had seen that day!** How great is our God! Truly nothing is too hard for our Lord!

**Please pray for Joel's Green Card** to be granted soon! He had his interview May 17th, but we are still waiting to hear back from them. Brooklyn must return to Bolivia in August to maintain her permanent residence, but Joel must complete this process to avoid future complications with immigrations.

**Please pray that we will all be able to return together!** We long to be home in the work to the which God has called us, yet we trust Him for His timing and pray He use us here for the time being.

**Please pray** for wisdom and provision for a used 4-wheel drive vehicle and a home in Bolivia.

**Please pray** for our children's Salvation as we teach them the Gospel.

Thank you as always for your faithfulness! May our Lord bless each of you!

Love in Christ,  
Joel, Brooklyn, Jason, and Valeria
